At PKP, we believe in quality and service. We have invested heavily in both our equipment and our staff, employing experienced professionals with an average of 28 years optical experience each. With our professional and informative technical advice and customer services, we hope to give our customers peace of mind and confidence with every order.

As a comprehensive and completely independent prescription house, we offer unbiased assistance and advice to all our customers. PKP Optics offers a full service including surfacing, glazing, hard coating and frame repairs including titanium. The Nidek & MEI glazing system and software we use is of the latest technology, capable of coping with the most challenging of frames. Our surfacing department is able to produce highly complex resin lenses. We also hold a varied stock of finished and semi-finished lenses, which can enable us to complete an order within 24 hours.

We have an excellent portfolio of glazed packages. Our portfolio consists of collections from Stepper, Eyespace, Emporium, and International Eyewear and others.

PKP are proud to offer our own brand collection of occupational and freeform varifocals. Available in multiple designs, this range will provide your customer a quality varifocal at an affordable price.

Should you require any information that is not included in our Lens Catalogue, then do not hesitate to contact us. We would like to thank you for your business, and we hope that we will continue to supply you with all your needs, and build for a successful future.

Best wishes
